EXPERIENCE

The Latz Report, Wollongong (remote) - Full-Stack Developer

2024 - Present

Built a B2B portal that allows clients to upload data and images for processing and publication. Responsible for the full project from initial consultation through to Azure deployment and support.

See: www.markevans.org/portfoliolatz

Independent Project - MAUI/Blazor Full-Stack Developer

2024 - Present

Building a cross-platform social app for travelling families using .NET MAUI, Blazor and Azure.

Responsible for design, development and deployment.

See: www.markevans.org/portfolioka

White Ventures, Finland (remote) - Full-Stack Developer

Jan 2026 - Present

Technical consultant helping debug complex integration issues for an AI-focused team. www.whiteventures.fi

Clear Dynamics, Melbourne (remote) - C# Developer/Tester

Dec 2025 - Jan 2026

C# expert developer testing low code tool "AIEOS" and providing feedback on its suitability as an enterprise solution. www.cleardynamics.com

Tabnine, Israel (remote) - C# Developer/Tester

2023 - 2024

Evaluated AI-generated C# code for an industry-leading developer tool vendor. www.tabnine.com

SKILLS

C#

Blazor

.NET MAUI

ASP.NET Core / Web API

SQL Server

Entity Framework

VS 2026

Azure (App Services, Blob Storage, Entra ID, Communication Services, SignalR)

Remote collaboration

Sabbatical

2014 - 2022

Undertook a long-term ocean sailing expedition while continuing independent development work.

During this period I retrained in modern .NET technologies including MAUI, Blazor and Azure.

Micronet Systems, Sydney – Senior Developer (Mobile)

2010 - 2013

Designed Windows Mobile apps and back-end services (WinForms, WPF, REST APIs, SQL Server). Trained in-house developers on modern .NET practices. www.micronet.com.au

Parrimark/Pravia, Sydney – Senior ASP.NET Developer

2008 - 2010

Built event management web apps and REST APIs (ASP.NET, EF, SQL Server).

Euromoney, London – Senior ASP.NET Developer

2007 - 2008

Designed and developed a stock market tracking site using ASP.NET and SQL Server. www.euromoney.com

Flairview, Sydney – Senior Windows Developer

2005 - 2007

Developed REST APIs for a Google Ads advertising system, and Windows apps for marketing teams.

StatsNZ (Department of Statistics), Wellington, NZ – ASP.NET Developer

2003 - 2004

Created a web portal for census data analysis using ASP.NET, SQL Server and Active Directory. www.stats.govt.nz

Superior Software for Windows, Sydney – Junior Developer

2001 - 2002

Worked under a Microsoft Regional Director, building .NET web applications and administration tools. www.ssw.com.au

Recommendations

“Mark has proven himself to be a very capable programmer. His portal is vastly more elegant, user-friendly and reliable than the previous portal. It is saving us significant labour costs each time we publish a new Yearbook.”

Phil Latz

The Latz Report, Wollongong

“Mark is the best contractor I had the pleasure to work with.”

Yoni Davidson

Tabnine, Israel

“Mark’s deep passion for technology and meticulous attention to detail set him apart.”

Martin Bajalan

Parrimark, Sydney
