Professional Summary

Passionate .NET developer with over 12 years of experience delivering robust solutions using C#, ASP.NET, SQL Server, and modern Microsoft stacks. Expertise spans back-end APIs, legacy system redesigns, and front-end development across Sydney, Wellington, and London. Now focused on .NET MAUI, Blazor, and Azure. Seeking a role to use my skills in cutting-edge technology, creating software that benefits people and the planet.

Key Skills

- C#, .NET MAUI, Blazor
 - Azure (App Service, Blob Storage, Entra ID)
 - ASP.NET Core Web API, SQL Server, Entity Framework
 - VS 2022
 - Communication (native English), remote collaboration
-

Professional Experience

MAUI/Blazor Hybrid Full-Stack Developer

Independent Startup | 2024 – Present

- Developing "Kids Are Everywhere," a cross-platform social app for traveling families (Web, Android, iOS), managing end-to-end design, development, and Azure deployment.
- Tech: .NET MAUI / Blazor Hybrid, ASP.NET Core Web API, SQL Server, Azure, Entra ID, MVVM.
- Portfolio: www.markevans.org | Live: www.kidsareeverywhere.com

Blazor Full-Stack Developer

The Latz Report | 2024 | Remote, Australia | www.thelatzreport.com.au

- Delivered a B2B portal for The Latz Report, enabling data/image uploads and content processing, from client consultation to Azure deployment and ongoing support.
- Tech: Blazor, ASP.NET Core Web API, SQL Server, Azure Blob Storage, VS 2022.
- Portfolio: www.markevans.org | Dev site: <http://latzportaldev.azurewebsites.net>

Microsoft Specialist Developer for AI Testing

Tabnine | 2023 – 2024 | Remote (Israel)

- Evaluated AI-generated C# code for an industry-leading developer tool under contract.

Career Break: Sailing

2014 – 2023 | Global

- Sailed with family, worked on small software projects, and upskilled in MAUI, Blazor, and Azure.

Senior Developer - Mobile

Micronet Systems | 2010 – 2013 | Sydney | www.micronet.com.au

- Designed Windows Mobile apps and back-end services (WinForms, WPF, REST APIs, SQL Server).
- Trained in-house developers on modern .NET practices.

ASP.NET Developer

Parrimark/Pravia/Momentum | 2008 – 2010 | Sydney

- Built event management web apps and REST APIs (ASP.NET, EF, SQL Server).

ASP.NET Developer

Euromoney | 2007 – 2008 | London | www.euromoney.com

- Designed and developed a stock market tracking site using ASP.NET and SQL Server.

Windows Developer

Flairview | 2005 – 2007 | Sydney

- Developed REST APIs for a PPC advertising system and Windows apps for marketing teams.

ASP.NET Developer

StatsNZ (Department of Statistics) | 2003 – 2004 | Wellington, NZ | www.stats.govt.nz

- Created a web portal for census data analysis (ASP.NET, SQL Server, Active Directory).
- Mentored team in .NET.

Junior ASP.NET Developer

Superior Software for Windows | 2001 – 2002 | Sydney | www.ssw.com.au

- Worked under a Microsoft Regional Director, building .NET web apps and admin tools.

Recommendation

8th April 2025

We hired Mark to create a new portal for our Yearbooks through which users can update their data and we can collate, edit and download the content for each Yearbook.

Mark has proven himself to be a very capable programmer. His portal is vastly more elegant, user-friendly and reliable than the previous portal that it replaced, which was written by another programmer. It is saving us significant labour costs, each time we publish a new Yearbook.

Perhaps even more importantly for our small business, Mark has given us exceptional value for money. He has gone far over and above the original brief.

Mark has also been consistently pleasant to deal with and easy to contact.

I would not hesitate to recommend Mark to any company looking for a reliable self-starter with a high degree of experience and expertise.

Best regards

Phil Latz
